

LAMERS TOOLING B.V. TOOLS + PARTS

“Your AS9100 certified supplier for special tools and machined components for Aerospace market”

About us

LAMERS TOOLING is a family company (2nd+3th gen.) with a long history of designing and manufacturing of special and precise tools. Based on this we ran into the parts and components machining for the High-tech industry. Followed by the defence industry. Since 2024 we meet the Aerospace standard AS9100 so we are a reliable supplier for costumers in the aviation and sky domain.

LRQA
CERTIFIED
