

HE SPACE OPERATIONS

“HE Space supports space missions providing systems and services to the European space market.”

About us

HE Space is a leading contracting company specialised in providing managed services and human resources to the space sector. Our employees contribute to all major European space programmes. Joining forces with CS GROUP and Sopra Steria, HE Space is part of SpaceForce. Together we support civil and military space missions (EO, GNSS, SATCOM, Science and Safety) along their life cycle with systems and services for ground and on-board software systems, engineering, consultancy, operation services and end-user applications.

Solutions

HE Space supports your business by matching your needs with the best available space talents. Our company is well-known for providing customised services to the European space market since 1982 and we stand out in the business thanks to our fast response to requests and a database full of qualified candidates in a variety of space domains.

Thanks to the combined SpaceForce skill set, HE Space also supplies turnkey systems and engineering services for the space and applications markets across Europe.

Company highlights

- After the 2023 merger with CS Group we significantly broadened our space capabilities and customer portfolio.
- Over the years, HE Space continuously won ESA's Best Supplier Award, lastly in 2022 with 8 more awards than competitors.
- We have 40 years of space industry experience and support all major industry leaders in Europe.
- In 1992 the first HE Space employees joined ESTEC.

Company facts

- Founded in 1982 as Hernandez Engineering by S. Millican and M. Hernandez in Houston, Texas (US).
- + 200 total FTE
- HE Space and SpaceForce employees are based at ESTEC, ECSAT, ESAC and ESA HQ, with offices in the Netherlands, Germany, UK and France.
- Our employees support underprivileged children via our non-profit HE Space Children's Foundation.
