

VIASAT

“Viasat is a global communications company that believes when everyone is connected, the possibilities are limitless.”

About us

Viasat is a global communications company that believes everyone and everything in the world can be connected. With offices in 24 countries around the world, our mission shapes how consumers, businesses, governments and militaries around the world communicate and connect.

Viasat is developing the ultimate global communications network to power high-quality, reliable, secure, affordable, fast connections to positively impact people’s lives anywhere they are – on the ground, in the air or at sea, while building a sustainable future in space.

In May 2023, Viasat completed its acquisition of Inmarsat, combining the teams, technologies and resources of the two companies to create a new global communications partner.

Solutions

- **Mobility:** Global high-speed, high-quality, satellite-enabled broadband services for airlines, maritime, rail, and other mobile users
- **Government:** Secure, fixed and mobile communications products and services for government, military and international forces
- **Global fixed satellite:** High-speed, satellite broadband services for consumers, businesses, and communities
- **Others:** Global services for energy, AI to help organizations transform data into results, and advanced products for the satellite industry
